

SHARON KIPSANG

IT Support Specialist | Systems Administration

kipc.sharon@gmail.com • 0111410391 • Nairobi, Kenya • [LinkedIn](#)

EDUCATION

Technical University of Mombasa
BSc. Statistics and Computer Science
Sept 2016 – Feb 2021

CERTIFICATIONS

- Cybersafe / API Security Certification — Dec 2025 – Mar 2026
- CyberShujaa Security Analyst — Oct – Dec 2025
- CyberShujaa / Cisco Ethical Hacker — Oct – Dec 2024

TECHNICAL SKILLS

- Active Directory & User/Group Management
- Windows OS Support & Configuration
- Microsoft 365 (Outlook, Teams, SharePoint)
- Networking (TCP/IP, DNS/DHCP, Wi-Fi/VPN)
- PostgreSQL & Linux System Administration
- Hardware/Software Troubleshooting
- Ticketing Systems & Technical Documentation
- Security Hardening & Access Control

SOFT SKILLS

- Communication & Stakeholder Support
- Problem Solving & Analytical Thinking
- Patience & Empathy
- Time Management & Reliability

INTERESTS

- Home Lab (Windows, Linux, Networking, Security)
- CTF Challenges (TryHackMe, Hack The Box)

REFERENCES

Available upon request.

PROFESSIONAL SUMMARY

Computer Science graduate and IT Support professional with hands-on experience across hardware support, Active Directory, Windows OS, Microsoft 365, networking, and ticketing/documentation. Background also includes PostgreSQL database administration, Linux system administration, and access control implementation. Comfortable communicating across technical and non-technical teams, with a proactive learning mindset and a growing focus on security-aware IT support.

PROFESSIONAL EXPERIENCE

Kenindia Assurance Company Ltd — Nairobi, Kenya

IT Support Specialist

May 2025 – Present

- Provided first-line hardware support for desktops, laptops, printers and mobile devices, including troubleshooting and peripheral management.
- Managed Active Directory user accounts, groups, organizational units, password resets and Group Policy (GPO) configuration.
- Supported and maintained Windows OS environments, including updates, drivers and performance optimization.
- Administered Microsoft 365 services (Outlook, Teams, OneDrive/SharePoint), including user and license management.
- Configured and troubleshoot network connectivity (TCP/IP, DNS/DHCP, Wi-Fi/VPN) and supported switches and routers.
- Logged and resolved support requests via ticketing systems, maintaining a knowledge base and clear technical documentation.

Lish AI Labs — Nakuru, Kenya

Backend Systems Developer Intern

May 2025 – Oct 2025

- Administered PostgreSQL databases, including schema design, user role configuration and least-privilege access control.
- Maintained Linux-based back-end infrastructure, resolving service/deployment issues and documenting configurations and workflows.

PROJECTS & PRACTICAL EXPERIENCE

IP Phone Security Automation Script — Kenindia Assurance

- Built an automation script to scan the organization's IP phone network and detect devices still using default/factory passwords.
- Extended the tool to identify IP phones and phone-server endpoints running weak or deprecated TLS/SSL versions, flagging vulnerable configurations for remediation.

CyberSafe Foundation / API Security University — Nov 2025 – Mar 2026

- Tested and documented access control weaknesses in simulated environments, producing structured risk-mapped assessment reports.

Hack The Box & TryHackMe — CTF Practice

- Ongoing labs and CTFs covering Linux administration, network systems and IT infrastructure analysis (incl. Advent of Cyber 2025).

KEY ACHIEVEMENT

- Best Female CyberShujaa Security Analyst.
